Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3, are rejected under 35 U.S.C. § 102(e) as being anticipated by U.S. Patent #6811086 to Kumagai et al. ("Kumagai" hereinafter). Kumagai discloses an optical scanning assembly comprising:

- a base portion 2;
- a connecting portion 62 hingedly attached to said base portion; and
- a scanning portion 12 removably attached to said connecting portion (see e.g. figures 20A and 20B, 34 and 35).

Re claim 2, see figures 13A - 13C.

Re claim 3, the guides can be construed as the connecting portion walls, which serve to guide the scanner into place.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U. S. Patent #6,357,704 and U. S. Patent Publication #2004/0149829 is cited for showing another scanner stand.
